Utility Bill Averaging / Equal Payment Plan

Since January 2010, the City of Winnemucca has offered a new program designed to simplify and enhance the convenience of utility bill payments for our customers. Utility Bill Averaging and Equal Payment Plans are programs designed to help customers manage their utility costs by spreading payments evenly over a period, typically 12 months. This approach levels out the payment amount, making budgeting easier and avoiding seasonal spikes in bills. To determine if you are eligible for this program, please contact our office (775) 623-6340. *Download the Equal Payment Plan Application*, or pick up a copy at Winnemucca City Hall, 90 W. Fourth Street.
